**RE: RE-OPENING OF AMBOSELI NATIONAL PARK AIRSTRIP**

Further to our earlier communication on the status of roads in our parks, KWS is notify the public that the Amboseli National Park airstrip has been re-opened with immediate effect.

This follows the outcome of a thorough assessment of the airstrip runway, as well as all park roads used to access the airstrip that was carried out by KWS, in conjunction with stakeholders comprising mostly of hotels and lodges hosted by the park. The assessment found the airstrip to be fully serviceable. The adjacent Customer Service Centre is now accessible and feeder roads to and from the airstrip are motorable as well.

Therefore, KWS wishes to assure the public that Amboseli National Park is open for visitation and is safe to visit, and any inquiries from clients using either our roads or airstrips should be directed to the **park hotline number:**

**0716 493 335**

The KWS Board of Trustees and management take this opportunity to wish all our esteemed visitors and conservation partners, a

**Merry Christmas and a prosperous New Year.**

**PAUL UDOTO**

**For: DIRECTOR GENERAL**
